

Index to Volume 233

- Abboud HE, *see* Simon M *et al*
 Antonov AS, *see* Sharma GD *et al*
 Arar M, *see* Simon M *et al*
- Baiardi G, Carrión A, Petrich ER, Zumino AP: 4-Aminopyridine: Effects on electrical activity during ischemia and reperfusion in perfused rat hearts 85–90
 Balducci E, Micossi LG: NAD-dependent inhibition of the NAD-glycohydrolase activity in A549 cells 127–132
 Barcia R, *see* Mercado L *et al*
 Barnes J, *see* Hutter D *et al*
 Belke T, *see* Broderick TL *et al*
 Bhandari B, *see* Simon M *et al*
 Bielawska A, *see* Gajko-Galicka A *et al*
 Bielawski K, *see* Gajko-Galicka A *et al*
 Biswas S, Gairola CG, Das SK: Oltipraz protects the passive smoke induced changes in renal glyoxalase system of rats 27–30
 Bowen WR, *see* Donev RM *et al*
 Brandoni A, *see* Cerrutti JA *et al*
 Broderick TL, Belke T, Driedzic WR: Effects of chronic caloric restriction on mitochondrial respiration in the ischemic reperfused rat heart 119–125
 Buetow DE, *see* Huang C-Y *et al*
- Calcagno AM, *see* Makagiansar IT *et al*
 Cao A, *see* Mercado L *et al*
 Carrión A, *see* Baiardi G *et al*
 Cerrutti JA, Brandoni A, Quaglia NB, Torres AM: Sex differences in p-aminohippuric acid transport in rat kidney: Role of membrane fluidity and expression of OAT1 175–179
 Chen P, *see* Hutter D *et al*
 Cheung F, *see* Man RYK *et al*
 Croera C, *see* Pessina A *et al*
- Das SK, *see* Biswas S *et al*
 Donev RM, Doneva TA, Bowen WR, Sheer D: HnRNP-A1 binds directly to double-stranded DNA *in vitro* within a 36 bp sequence 181–185
 Doneva TA, *see* Donev RM *et al*
 Driedzic WR, *see* Broderick TL *et al*
- Feliers D, *see* Simon M *et al*
 Feng J, Li H, Rosenkranz ER: Diazoxide protects the rabbit heart following cardioplegic ischemia 133–138
 Flameng W, *see* Kaplan P *et al*
 Foti P, *see* Pessina A *et al*
- Gagliardi G, *see* Pessina A *et al*
 Gairola CG, *see* Biswas S *et al*
 Gajko-Galicka A, Bielawski K, Sredzinska K, Bielawska A, Gindzienski A: Elongation factor 2 as a target for selective inhibition of protein synthesis *in vitro* by the novel aromatic bisamidine 159–164
 Gerrity RG, *see* Sharma GD *et al*
 Gindzienski A, *see* Gajko-Galicka A *et al*
 Giuliani A, *see* Pessina A *et al*
 Gorin PAJ, *see* Noleto GR *et al*
 Gow IF, *see* Shennan DB *et al*
 Grant ACG, *see* Shennan DB *et al*

- Han X, *see* Wang X *et al*
- Hao L-Y, *see* Huang C-Y *et al*
- Hardin MS, Mader R, Hurta RAR: K-FGF mediated transformation and induction of metastatic potential involves altered ornithine decarboxylase and S-adenosylmethionine decarboxylase expression – role in cellular invasion 49–56
- Huang C-Y, Hao L-Y, Buetow DE: Hypertrophy of cultured adult rat ventricular cardiomyocytes induced by antibodies against the insulin-like growth factor (IGF)-I or the IGF-I receptor is IGF-II-dependent 65–72
- Hurta RAR, *see* Hardin MS *et al*
- Hutter D, Chen P, Li J, Barnes J, Liu Y: The carboxyl-terminal domains of MKP-1 and MKP-2 have inhibitory effects on their phosphatase activity 107–117
- Iacomini M, *see* Noleto GR *et al*
- Ikesue A, *see* Makagiansar IT *et al*
- Jacob SS, Shastri P, Sudhakaran PR: Monocyte-macrophage differentiation *in vitro*: Modulation by extracellular matrix protein substratum 9–17
- Jia S, *see* Wang X *et al*
- Kaplán P, Matejovicová M, Lehotský J, Flameng W: Effect of myocardial stunning on thiol status, myofibrillar ATPase and troponin I proteolysis 145–152
- Kocis JM, *see* Kaplán P *et al*
- Kocis JM, *see* Kuo W-N
- Kuo W-N, Kocis JM: Nitration/S-nitrosation of proteins by peroxynitrite-treatment and subsequent modification by glutathione S-transferase and glutathione peroxidase 57–63
- Lehotský J, *see* Kaplán P *et al*
- Li H, *see* Feng J *et al*
- Li J, *see* Hutter D *et al*
- Liu Y, *see* Hutter D *et al*
- Lynn EG, *see* Man RYK *et al*
- Mader R, *see* Hardin MS *et al*
- Makagiansar IT, Yusuf-Makagiansar H, Ikesue A, Calcagno AM, Murray JS, Siahaan TJ: N-cadherin involvement in the heterotypic adherence of malignant T-cells to epithelia 1–8
- Man RYK, Lynn EG, Cheung F, Tsang PSY, O K: Cholestin inhibits cholesterol synthesis and secretion in hepatic cells (HepG2) 153–158
- Mascolo L, *see* Pessina A *et al*
- Matejovicová M, *see* Kaplán P *et al*
- McNeill JH, *see* Mohammad A *et al*
- Mercado L, Cao A, Barcia R, Ramos-Martinez JJ: Purification of a lipid-activated and Ca²⁺-independent protein kinase from the mantle tissue of *Mytilus galloprovincialis* Lmk. 99–105
- Mercê ALR, *see* Noleto GR *et al*
- Micossi LG, *see* Balducci E
- Mohammad A, Sharma V, McNeill JH: Vanadium increases GLUT4 in diabetic rat skeletal muscle 139–143
- Murray JS, *see* Makagiansar IT *et al*
- Neri MG, *see* Pessina A *et al*
- Nguyen HT, *see* Sharma GD *et al*
- Noleto GR, Mercê ALR, Iacomini M, Gorin PAJ, Soccol VT, Oliveira MBM: Effects of a lichen galactomannan and its vanadyl (IV) complex on peritoneal macrophages and leishmanicidal activity 73–83
- O K, *see* Man RYK *et al*
- Oliveira MBM, *see* Noleto GR *et al*
- Pandey KN, *see* Sharma GD *et al*
- Pessina A, Giuliani A, Croera C, Foti P, Mascolo L, Gagliardi G, Neri MG: Selection of a WEHI-3B leukemia cell subclone resistant to inhibition by cholera toxin 19–26
- Petrich ER, *see* Baiardi G *et al*
- Quaglia NB, *see* Cerrutti JA *et al*

Ramos-Martinez JI, *see* Mercado L *et al*

Rosenkranz ER, *see* Feng J *et al*

Sharma GD, Nguyen HT, Antonov AS, Gerrity RG, von Geldern T, Pandey KN: Expression of atrial natriuretic peptide receptor-A antagonizes the mitogen-activated protein kinases (Erk2 and P38^{MAPK}) in cultured human vascular smooth muscle cells 165-173

Sharma V, *see* Mohammad A *et al*

Shastry P, *see* Jacob SS *et al*

Sheer D, *see* Donev RM *et al*

Shennan DB, Grant ACG, Gow IF: The effect of hyposmotic and isosmotic cell swelling on the intracellular [Ca²⁺] in lactating rat mammary acinar cells 91-97

Siahaan TJ, *see* Makagiansar IT *et al*

Simon M, Feliers D, Arar M, Bhandari B, Abboud HE: Cloning of the 5'-flanking region of the murine bone morphogenetic protein-7 gene 31-37

Soccol VT, *see* Noleto GR *et al*

Sredzinska K, *see* Gajko-Galicka A *et al*

Sudhakaran PR, *see* Jacob SS *et al*

Torres AM, *see* Cerrutti JA *et al*

Tsang PSY, *see* Man RYK *et al*

von Geldern T, *see* Sharma GD *et al*

Wang X, Han X, Jia S, Yang F: Change of apocytochrome c translocation across membrane in consequence of hydrophobic segment deletion 39-47

Yang F, *see* Wang X *et al*

Yusuf-Makagiansar H, *see* Makagiansar IT *et al*

Zumino AP, *see* Baiardi G *et al*
